

## **BOOSTER CLUB MEETING**

**December 6, 2010**

Present: Tom Stames, Lisa Barrett, Liddy Bourne, Julie Blake, Penny Davis, Sheila Jones, Robyn Desrochers, Elizabeth Emerson, Mary Leikert, Lisa Cross, Karen Lanphear, Sara Allen, Joanie Newton

Tom Stames reported that Boostervision is up and running. Purchased by the Booster Club and installed on the wall outside the high school library, the intent of the television is to help make students, faculty and guests aware of events happening at our school and beyond. School personnel are making the updates and changes. If you have ideas for inclusion please contact Michele in the high school office.

The financial situation of the Booster Club continues to be strong. Even after purchasing the television and helping to fund the scoreboard, the group has a solid balance moving into the basketball season. If similar to last year, the basketball season has the strongest sales at the snack table.

Bob White from NFS Sports was unable to make his fundraising presentation because of weather. We will reschedule him for another meeting.

Booster merchandise supplies are dwindling. We agreed to donate 10 cinch sacks to the school store for them to sell at \$7 per. They will retain the proceeds. Boosters will also change their selling price to the same, and if the school store requires more we will help them out.

The basketball concession schedule is posted on our website. Please review the list and sign up for games.

It was agreed that all current officers will continue. We will discuss holding elections in September of each year.

Brenda Gravel has created a one-page compilation of all winter sports schedules. It was approved that we will print out several and distribute them to those who are interested. They will be available at the snack table at basketball and also at the merchandise table at hockey.

In order to boost membership, we discussed the possibility of posting a sign-up sheet at home games requesting email addresses of people interested in being included on our distribution list.

Because of no school on January 17, we will schedule the next Booster Club meeting for 6pm on Monday, January 10, 2011.
